Science Industry Partnership

Be part of something bigger

Leading our industry together

The Science Industry Partnership (SIP) is a powerful employer led membership alliance. Our vision is to help secure the future growth and development of a highly skilled, world-class workforce for the science industries.

We do this by providing our members - from the largest to the smallest - with the opportunities to collaborate, influence and grow our sector together.

Chemicals

Medical Technology

Coatings & Paints

Personal Care & Consumer Products

Downstream Petroleum

Pharmaceuticals

Industrial Biotechnology

Polymers & Plastics

Medical Biotechnology

Collaborate and share best practice

Connect with a vibrant community of professionals who share your ambition for skills in our sector.

Taking part in SIP employer-led strategic skills groups covering Apprenticeships, Careers Outreach or Regulatory Compliance offers you the chance to be inspired, share your ideas and drive our sector to new heights. We recognise that industry gains when you give back, that's why we offer a wide range of collaborative opportunities including national, regional or sector-specific interest groups aligned to your own area of expertise.

Influence the decisions that affect our industry

Addressing the skills needs across the science industries is not only critical for the long-term success of your business, it's a key driver for innovation, global competitiveness and human advancement.

Through the power of one collective voice, SIP members speak out on the skills challenges affecting your workforce. Ensuring science industry employers are empowered with a strong voice to shape the skills agenda, influencing policy makers on the unique challenges we face in our sector.

“ *It's so important that employers do not have to face skills challenges alone. SIP provides a fantastic platform that enables us to collaborate together.*

Malcolm Skingle
Director Academic Liaison
GSK

The SIP's careers outreach work and Ambassador training supports the development of our workforce and champions our business in the local community.

Paul Hunt
R&D Director
Vitrex Plc

Knowing that SIP holds regular dialogue with Government departments on the skills agenda is a great bonus for us.

Jacqui Hall

Switched on business support

When it comes to dealing with the complexities of managing your talent pipeline or maintaining a competent workforce, you need practical, actionable support from seasoned professionals. That's why with SIP membership, you'll get access to our specialist skills team offering employer friendly advice and practical support across areas such as Apprenticeships, Careers Outreach and Competence and Regulatory Compliance.

Apprenticeship Support

Expert guidance for your new or existing apprenticeship programmes. With practical one to one consultancy covering everything from apprenticeship standards, funding and assessment to developing the skills and knowledge of your team.

SIP members can access clear, no-nonsense support, enabling you to develop your own best in class apprenticeship programme.

Careers Outreach

Build a pipeline of future talent, make a positive impact in your community, and create an uplifting and impactful experience for your employees.

Our SIP Ambassador programme provides a comprehensive outreach solution to train, develop and support your workforce as they inspire the next generation. With dedicated Ambassador training and school ready resources all as part of your membership package.

Regulatory Compliance

Our health check of your Competence Management System (CMS) will help you to focus on business and safety-critical activities, ensuring they are performed to the required industry or regulatory standards.

SIP members can also benchmark their organisation's top-down commitment to process safety against internationally recognised guidance and our Process Safety Leadership training standard.

Skills insight to keep you informed and inspired

Our research and analysis draws upon the cumulative expertise and experience of our member community and is a trusted source of data across a range of skills issues. Whether it's apprenticeships, Equality, Diversity & Inclusion or labour market intelligence, our unique surveys and reports add evidence-based authority to help you plan, benchmark and make business decisions with confidence.

SIP members can access the very best skills support via a comprehensive calendar of webinars and workshops covering a variety of skills topics relevant to your business. And as an employer led membership group, there are plenty of opportunities for you to set the agenda.

We also provide you with regular opportunities to showcase your achievements and your business in one of our newsletters, publications or best practice case studies.
